For all the beautiful moments in your garden...

Garden houses are both pretty and practical. Throughout the year, you may use it to protect your garden furniture against the elements and humidity. It may also give shelter to the tender plants that would not otherwise withstand sustained cold. Hence, besides being a cosy getaway, a garden house may be used as a storage room as well.

Garden houses are mostly manufactured from timber — this is a natural material that will harmonise with any garden setting. There are garden houses in various shapes and sizes — from simple small cabins without Window with an area of about a square metre to houses with large Door and Window and several rooms. If you use your garden house for lodging or as a holiday home, or if you wish to hold a party there, the house can be supplied with electrical and water supply connections.

Tene Kaubandus OÜ was established in 1999. We produce garden houses and garden accessories from high quality timber of northern spruce.

During the years, the production volumes of Tene Kaubandus have increased. Today, we produce 12,000 to 15,000 garden houses in a year. Our product line includes garden houses, saunas, playhouses for children, gazebos and garages with the wall thicknesses of 28mm, 40mm, 58mm and 70mm. We ensure high quality with well-considered elements, such as:

- Wind-resistant corner joints
- Door and Window from glued timber are glazed with real glass, and have tilt-and-turn openings.
- 58mm and 70mm houses have double-glazed Door and Window, seals and aluminium water drips.
- All the houses have impregnated foundation beams.
- 40mm and thicker wall boards are double-grooved.
- Skirting and floor boards cut to match the design are included.
- All the models have storm bars, corner joints of 58mm and 70mm houses have metal support bars.
- All the houses are complete with an assembly kit, asphalt roofing paper and a thorough installation manual.

The products are manufactured from high quality raw materials using the state-of-the-art technology and most contemporary machinery. Our primary aim is to manufacture perfect garden houses and ensure their accurate and timely delivery to our clients.

We have produced various houses for diverse applications to the custom designs of our clients, thus we have experience and know-how for more sophisticated projects. You may find some of them in our catalogue as well. We will ensure you that your order will be fulfilled in the best possible way.

Thank you for your interest in our products.

Owners

Für schöne Stunden im Garten...

Ein Gartenhaus ist nicht nur schön, sondern auch praktisch. Es eignet sich gut dazu, im Winter Gartenmöbel und Sitzauflagen vor Regen, Sonne und Feuchtigkeit zu schützen. Auch Pflanzen, die nicht winterfest sind, können in einem Gartenhaus gut überwintern. Daher ist für viele ein Gartenhaus auch mehr ein Abstellraum als ein Haus, in dem man sich aufhält. Gartenhäuser werden meist aus Holz gefertigt, weil dieses Material eine natürlich Optik bietet und sich so gut in einen Garten integrieren lässt. Gartenhäuser gibt es in vielen Größen und Ausführungen — vom einfachen, nicht mehr als einem Quadratmeter großen, fensterlosen Häuschen bis hin zum Gartenhaus mit Fenster und Türen und sogar mehreren Zimmern. Möchte man das Gartenhaus auch als Übernachtungsmöglichkeit oder Aufenthaltsort für Partys und Feiern nutzen, so kann man seinem Gartenhaus auch einen Strom- und Wasseranschluss verpassen.

Tene Kaubandus wurde im Jahre 1999 gegründet. Die Firma produziert Gartenhäuser und Gartenzubehör aus hochwertigem nordischen Fichtenholz.

Vom Jahr zu Jahr haben sich unsere Produktionsmengen erhöht, heute produzieren wir 12.000–15.000 Gartenhäuser im Jahr. Unser Sortiment besteht aus Garten-, Sauna-, und Kinderspielhäusern, Pavillons und Garagen in Wandstärken 28 mm, 40 mm, 58 mm und 70 mm. Die hohe Qualität ergibt sich durch durchgedachte Details wie:

- winddichte Eckversätze, Schalerverfräsung
- alle Türen und Fenster aus Leimholz, mit Echtglas und Dreh-/Kipp-System
- Fenster und Türen bei Häuser ab 58 mm mit Isolierverglasung, Gummidichtungen und Alu-Wasserschinkel
- alle Modelle haben imprägnierte Lagerhölzer
- Blockbohlen mit Doppelnut ab Modellen in 40 mm
- Fußbodenleisten und zugeschnittene Fußbodendielen im Lieferumfang
- alle Häuser haben Sturmleisten, die 58 und 70 mm Häuser sind mit Gewindestangen versehen
- alle Häuser haben komplette Bausätze inklusive Befestigungsmaterial, Dachpappe und eine ausführliche Montage-Anleitung.

In der Produktion werden modernste Technologie, spezielle Technik und hochwertige Rohmaterialien verwendet. Unser Ziel ist immer die Vollständigkeit unserer Gartenhäuser und pünktliche Lieferzeiten zu erreichen.

Wir haben Erfahrungen und Kenntnisse um auch sehr komplizierte architektonische Projekte auszuführen, weil wir schon über 11 Jahre, auch nach Kundenprojekte, Häuser verschiedener Größen, für verschiedene Zwecke ausgeführt haben. Einige der Projekte sind in unserem Katalog vorgestellt. Das ermöglicht Ihnen die beste Ausführung zu bestellen.

Wir bedanken uns für Ihre Interesse.

Momentos hermosos en su jardín...

Las casitas de jardín de Grupo Tene son el complemento perfecto para darle un toque de distinción a su jardín. Por su multifuncionalidad podemos encontrar modelos apropiados para guardar sus herramientas de una forma elegante y ordenada, gimnasio, salas de juegos, estancias adicionales a la casa, despachos, cocinas de jardín, kioscos, comedor auxiliar junto a la piscina y espacios agradables para reuniones familiares.

No sólo son un complemento bonito para el jardín, durante el invierno es el espacio perfecto para proteger los muebles y herramientas de jardín de la lluvia, el sol y la humedad e incluso plantas no resistentes al frío sobreviven con éxito el invierno en una casita de jardín. Por lo tanto aparte de ser un buen lugar para el ocio, una casita de jardín es también un buen espacio de almacenaje.

Habitualmente se utiliza madera para construir casitas de jardín puesto que este material es natural, ecológico y complementario con cualquier jardín.

Las casitas de jardín las podemos encontrar con distintas formas y tamaños: Desde modelos muy simples de tan solo un metro cuadrado sin ventanas, hasta modelos con grandes ventanales, puertas y varias habitaciones, teniendo la posibilidad de instalar conexiones de agua y luz en el caso de querer utilizarla como residencia ocasional.

Tene Kaubandus OÜ fue fundada en el año 1999. La empresa fabrica casas de madera, casitas de jardín y accesorios para el jardín, utilizando madera de abeto nórdico de alta calidad.

Con el paso de los años la capacidad de producción de Tene Kaubandus se ha ido incrementando y hoy en día fabricamos entre 12.000 y 15.000 casitas de jardín al año. Nuestra gama de productos incluye: casitas de jardín, cabañas, casas de madera, saunas, casitas de jardín infantiles, glorietas y garajes con 28 mm, 40 mm, 58 mm y 70 mm de grosor de la pared.

La alta calidad se garantiza con los siguientes detalles en la elaboración de nuestras casas:

- Sistema constructivo con uniones de ensamblaje perfecto para la protección contra el viento.
- Todas las puertas y ventanas son de madera laminada, con cristales auténticos y oscilobatientes.
- Las casitas a partir de 58 mm tienen las ventanas y puertas con cristal doble y cámara de aire, cierre hermético y protectores para la lluvia de aluminio.
- Todas las casitas disponen de perfiles de arranque tratados en autoclave verde.
- Las tablas de la pared a partir de 40 mm tienen doble ranura en el machihembrado.
- En el Kit se incluyen todas las tablas de la casa cortadas a medida, todos los herrajes necesarios (tornillería, clavos, cerraduras, manivelas, etc.), ventanas y puertas, tela asfáltica para la cubierta y libro de instrucciones para su montaje.
- Todos los modelos disponen de listones anti-tormenta, las casitas de 58 y 70 mm disponen de barras de soporte de metal en la ensambladura de las esquinas.

En la producción utilizamos la tecnología más avanzada del mercado, maquinaria especializada y materia prima de alta calidad. Nuestro objetivo es fabricar casitas de jardín perfectas y garantizar su entrega puntual y oportuna al cliente.

El gran volumen de construcciones de casas de madera junto a la experiencia adquirida durante este tiempo, hace que podamos realizar con total garantía cualquier diseño aportado por nuestros clientes y hasta los proyectos más complejos.

Todo esto nos permite realizar el mejor producto para usted.

Le agradecemos el interés por nuestra empresa.

Pour tous les bons moments dans votre jardin...

Les maisons de jardins sont belles et pratiques. Tout au long de l'année, vous pouvez l'utiliser pour protéger votre mobilier de jardin contre les éléments et l'humidité. Elles peuvent également abriter les plantes fragiles qui, autrement, ne pourraient résister à un froid persistant. Par conséquent, en plus d'être une maison confortable, une maison de jardin peut également être utilisée comme un entrepôt.

Les maisons de jardins sont en général construites en bois — c'est un matériau naturel qui s'harmonisera avec tous les agencements de jardins. Il y a des maisons de jardin de toutes tailles et de toutes formes — depuis la simple cabane sans fenêtre d'une surface d'environ un mètre carré aux maisons avec de grandes portes et fenêtres et plusieurs chambres. Si vous utilisez votre maison de jardin pour y habiter ou comme maison de vacances, ou si vous voulez y célébrer une fête, la maison peut être équipée de raccordements électriques et d'eau.

Tene Kaubandus OÜ a été fondée en 1999. Nous produisons des maisons de jardin et des accessoires de jardin à partir d'un bois de grande qualité d'épicéa nordique.

Au cours des années, la production de Tene Kaubandus a augmenté. Aujourd'hui nous produisons entre 12'000 15'000 maisons de jardin par année. Notre ligne de produit comprend des maisons de jardin, des saunas, des maisonnettes pour enfants, des gloriettes et garages avec une épaisseur de mur de 28mm, 40 mm, 58 mm et 70 mm. Nous garantissons une grande qualité avec des éléments reconnus comme:

- les joints d'angle résistants aux vents
- toutes les portes et fenêtres en bois collé sont à vitrage en verre véritable et à ouverture pivotante et basculante.
- les maisons à partir de 58 mm ont des portes et fenêtres à double vitrage, joints et jets d'eau en aluminium
- toutes les maisons ont des poutres de fondation imprégnées
- les planches de murs de 40mm et plus sont doublement bouvetées
- les plinthes et les planchers coupés pour s'adapter au design sont inclus
- toutes les maisons ont des barres anti-tempête (storm bars), les joints d'angle des maisons de 58 et 70 mm ont des barres de support métalliques.
- Toutes les maisons ont un kit de montage complet, y compris le papier goudronné pour la toiture et un manuel d'installation détaillé.

Les produits sont fabriqués avec des matières premières de grande qualité en utilisant une technologie de pointe et les machines les plus modernes. Notre premier objectif est de fabriquer des maisons de jardin parfaites et de garantir une livraison conforme et dans les délais à nos clients.

Nous avons produit différentes maisons pour des applications variées selon les designs particuliers de nos clients, c'est pourquoi nous avons l'expérience et le savoir-faire nécessaire pour les projets les plus sophistiqués. Vous pouvez également en trouver quelques-uns dans notre catalogue. Nous vous garantissons que votre commande sera exécutée de la meilleure des manières possible.

Nous vous remercions de votre intérêt pour nos produits.

I bei momenti nel tuo giardino...

La casetta da giardino non è solo bella, ma è anche pratica. In inverno funziona bene per riporre l'arredamento da giardino dalla pioggia, dal sole e dall'umidità. Anche le piante non resistenti al freddo potranno così sopravvivere l'inverno con successo. Di conseguenza, la casetta, oltre a essere un comodo spazio di svago, è anche un'utile luogo di riparo.

Di solito le casette vengono costruite di legno, siccome il materiale è naturale e si adatta bene all'atmosfera (del giardino). Vi sono varie dimensioni e vari tipi delle casette da giardino: dalle casette semplici, senza finestre, coprendo solo 1 metro quadrato, alle casette che hanno delle finestre e delle porte davvero grandi e addirittura parecchie stanze/camere. Nel caso in cui la casetta verrà utilizzata tra l'altro anche come un'alloggio o uno spazio di relax, o in cui si vorrà festeggiare, è possibile installarci la rete elettrica e idrica.

Tene Kaubandus Srl è stato fondato nel 1999. L'azienda produce casette da giardino e complementi d'arredo dell'abete nordico di alta qualità.

La quantità della produzione è aumentata nel corso degli anni e oggi stiamo realizzando 12 000-15 000 casette da giardino all'anno. Ce ne sono vari tipi delle casette nel nostro assortimento: casette da giardino, sauna, casette per bambini per permettere ai bambini di giocare nel giardino, padiglioni, garage con il spessore delle pareti di 28 mm, 40 mm, 58 mm ja 70 mm. La qualità alta è assicurata dai dettagli come:

- Soluzioni resistenti al vento, i tenoni
- Tutte le finestre e le porte vengono realizzate in legno lamellare, con il vetro vero ed ad anta ribalta.
- Le casette a partire da 58 mm hanno le finestre e le porte pose in opera di doppi vetri, le guarnizioni ed il drenaggio in alluminio.
- Tutte le casette hanno le travi di fondazione impregnati [impregnated foundation beams].
- Le mensole verranno costruite a doppio incastro di 40 mm di spessore.
- Le guide di scorrimento per il pavimento e le assi di legno vengono comprese.
- Compresi sono anche i morsetti della guida di scorrimento ed i storm bar; le casette di 58 e 70 mm hanno nelle connessioni angolari le barre di sostegno.
- Tutte le casette sono fornite con un kit completo degli attrezzi di montaggio, con il materiale di copertura di tetti e con un manuale approfondito.

Nella realizzazione viene utilizzata la tecnologia nuovissima, una tecnica speciale e la materiale di alta qualità. Il nostro scopo è produrre delle casette da giardino ideali e assicurare la loro consegna adatta ai nostri clienti.

Abbiamo anche le esperienze e le competenze di avviare dei progetti più complessi, siccome abbiamo realizzato delle casette di vari tipi per diversi scopi anche secondo i progetti personalizzati. Alcuni di essi sono riportati anche nel nostro catalogo. Tutto ciò vi renderà possibile di ordinarci la progettazione e la realizzazione migliore.

Vi ringraziamo per essere stati interessati dai nostri servizi,

Riho Reesar e Heino Kirs (i proprietari della ditta)

Prettige momenten in uw tuin...

Een tuinhuis is zowel mooi als nuttig. In de winter biedt een tuinhuis bescherming aan het tuinmeubilair tegen regen, zon en vocht. Ook voor planten die niet winterhard zijn, biedt een tuinhuis een praktische beschutting. Een tuinhuis is dus behalve een gezellige zitruimte ook nog een handige opslagplaats.

Tuinhuisen worden meestal van hout gemaakt, een natuurlijk materiaal dat goed past in een tuin. Er zijn tuinhuisen in verschillende maten en vormen — eenvoudige hutjes van één vierkante meter zonder ramen, tot riante huizen met verscheidene kamers en grote ramen en deuren. Is het de bedoeling om in het tuinhuis te gaan slapen of rusten, of dat er feestjes worden gehouden, dan kunnen ook de nodige aansluitingen voor elektriciteit en water worden aangelegd.

Tene Kaubandus OÜ is opgericht in 1999. Het bedrijf vervaardigt tuinhuisen en tuinaccessoires van hoogwaardige Noorse spar.

De productieaantallen van Tene Kaubandus OÜ zijn in de loop der jaren gegroeid. Tegenwoordig produceren wij 12.000 tot 15.000 tuinhuisen per jaar. Ons assortiment bestaat uit tuinhuisen, sauna's, speelhuizen voor kinderen, paviljoens en garages met wanden van 28 mm, 40 mm, 58 mm en 70 mm. Voor een topkwaliteit wordt gezorgd door goed doordachte details zoals:

- windvaste hoekverbindingen
- alle ramen en deuren zijn van verlijmd hout, met echt glas en tilt en turn opening.
- tuinhuisen met een wanddikte van 58 mm of meer hebben ramen en deuren met dubbele beglazing, waterdichte afsluitingen en aluminium druiplijsten.
- alle huizen hebben geïmpregneerde funderingsbalken.
- wandplanken van 40 mm en breder met dubbele gleuf
- inclusief plinten en vloerplanken op maat
- alle modellen hebben stormlijsten, 58 en 70 mm huizen hebben in de hoekverbindingen metalen verbindingstangen.
- alle huizen beschikken over een volledig montagepakket, dakvilt en een uitgebreide handleiding voor de montage.

Voor de productie wordt gebruik gemaakt van de nieuwste technologie, een specifieke techniek en hoogwaardige materialen. Ons doel is om perfecte tuinhuisen te vervaardigen en om te garanderen dat ze correct en tijdig bij de klant geleverd worden.

Daar wij hele verschillende huizen voor diverse gebruiksdoeleinden op basis van projecten van klanten geproduceerd hebben, beschikken we ook over de nodige ervaring en vaardigheden voor de uitvoering van projecten die ingewikkelder zijn. Sommige van deze uitgevoerde projecten zijn ook te bekijken in onze catalogus. Dit geeft u de kans om de beste uitvoering voor uw project te bestellen.

Hartelijk dank voor uw belangstelling in onze producten!
